Get Exchange Rate

Currency Charts

- Currency charts are graphical representations of the exchange rate between two currencies over a specific period of time.
- We display a Line Chart, that connects closing prices of a currency pair over a chosen time of the past 30 days. It gives a clear overview of the general trend.
- Displays the currency pair's price movement as a line that moves up and down along a timeline.

Financial News

- Informed decisions are the cornerstone of financial success. Whether it's investments, savings, or budgeting, being up-to-date with market trends, economic developments, and financial news helps in making wise decisions. Information will impact currency conversion rates.
